Community News

CanTEST have tested a total of **4715** samples to 20th May 2025.

We provided **202** health and AOD brief interventions and **5/165** samples were voluntarily discarded by people after they received their results.

Did you know that CanTEST don't test organics (like mushrooms and marijuana?) Remember that **being 99% sure you're right is 100% wrong** when it comes to identifying psychedelic mushrooms. Even a small amount of a death cap mushroom can be fatal.
